

Supplies:

1-2 letter size file folders (manila or kraft) sample used 3-tab Right or left tab folders

Graphic 45 Floral Shop Sampler Pack, includes stickers and ephemera (or paper of your choice)

Vintage Photo Distress Ink

Corner Rounder

Black Card stock

Scoring Board

Hemp Twine

Vintage Button

- 1) Using the right tab file folder measure 6" from the right side and cut (keep extra portion cut)
- 2) Open folder measuring from the top of the tab score across horizontally at 1 1/8", 7 1/8" and 7 5/8" (these will be the new folds of the book)
- 3) From the original center fold of the file folder measure down 8 1/2" and cut (from the top of the tab it should measure 18 1/2')
- 4) From the original center fold of the file folder score horizontally 3" and at 3 1/2"

Pockets: (3 each) using the extra pieces or the 2nd file folder or card stock to match the file folder cut 3 pieces at 6 1/2" x 4 1/2"

Using the 6 1/2" as the horizontal layout format measure over and score down at 1/4" and 3/8" and 6 1/8" and 6 1/4" then from the top of the pocket measure down 3 7/8" and 4" and score. Fold the scored lines to make your pocket. To remove some of the bulkiness cut diagonally on the bottom corners.

Mark the center of each pocket moisten with a light spray mist of water half way down in order to easily tear then curl back the corners of this tear.

Cur 3 pieces of the selected card stock to cover the top of each pocket at 5 1/2" x 3 3/4".

Mark the center of the 5 1/2" side and moisten half way down so you can tear like you did with the pocket. These pieces will fit on top of the pocket. Curl the corners of the torn pieces. They should slide under the pieces of the curled corners of the pockets. You may have to manipulate a bit so they curl together.

This album has folders in each of the pockets that can be utilized to adhere pictures or add additional paper to make more places to add pictures.

Cut 3 pieces of printed paper to fit the front of your book and embellish as you wish, a little or a lot.

Use button on the top tab so that you can wrap twine around book when it is folded up or use it as a hanger to display the book on a hook.
