GROUPS

Let's be friends! Look us up on your favorite social sites to find out about the latest Expo happenings, get fun ideas, and share your own creations with fellow crafters.

The Chalkin' Chic

———— CHALK COUTURE ————
———— INDEPENDENT DESIGNER ————

GINGERBREAD HOUSE

1. Open up your package and take out all of the items.
2. Cut open all your packets of paste, brown, white, and red. (just enough to put your squeegee in to collect paste on it)
3. Take the brown paste and squeeze it onto your dry baby wipe.
4. Swipe baby wipe with brown paste on it all over the white house, cover house until you achieve your desired look.
5. Let house dry.
6. Open silk screen transfer and take it out of its package (gingerbread house) there are 3 different styles of the gingerbread house, you may have a different one than I do.
7. Peel off backing of transfer and set aside.
8. Take transfer sticky side down and place onto a towel or your shirt to take a bit of the sticky out.
9. Place transfer on the dry brown house.
10. Take your squeegee and dip into the white paste packet.
11. Scrape the squeegee with the white paste and cover the whole silk screen with the paste. Any extra paste scrape off transfer and place back in white paste packet.
12. Peel transfer from house and rinse transfer in water.
13. Place transfer sticky side up on towel to dry. When dry put back on sheet it came on and store to use again.
14. Clean squeegee and store to use again.
15. The red packet is to use if you wanted to add detail to your house.

GINGERBREAD DREAMS

You will need: scissors, liquid adhesive, foam tape and markers of your choice. *Optional:* Stickles

Instructions:

Most of the coloring is simple on this card, there are just a lot of pieces! I used the following COPIC marker colors:

Gingerbread House: E33, E35, E37 **All Windows:** Y06, Y08 **Door:** BG45, BG13 **Curtains:** YG06 **Tree Colors:** Y06, YG03, YG23, YG06, **Gumdrop tree colors:** RV13, Y06, BV01, YG06 **Gingerbread Man:** E33, E35 **Holly:** G07, R37 **All Peppermint & Holly Berries:** R37 **Purple Suckers:** BV01

Gingerbread House: Using a circular motion, color the entire house (not windows door or snow) with E33. Using the photo as a guide, go over the house again with E33 to add shading. Pay close attention to the base of the house and the underneath of the hanging snow. Use E35 to continue shading, leaving lighter spots in the middle of the house. DO NOT cover all of the E33. Repeat once more with E35 coloring even less of the house. Finally, use E37 VERY SPARINGLY, paying attention to under the overhanging snow and the corners of the house.

Using foam tape, attach the overhanging snow on the colored Gingerbread House. Color the door piece and pop up with foam tape. Attach a piece of holly for decoration. Add a piece of peppermint candy to the top peak.

Trees: Start with a small amount of yellow in the center of the trees (about the size of a quarter scribble). Fill with YG03, spot color with YG23 filling in the shadows. Using YG06, color in the spots that would be the darkest. The trunks of the trees are E33.

Card Assembly

Attach blue piece to card back. Attach long snow piece on top of the blue piece. Attach one set of trees behind the snow on the left side. Attach house on top of the very right side of the tree. Attach remaining trees in front of the snow. Continue adding pieces as show in the photo. Both gumdrop trees are popped up. Attach snowflakes to the sky. Using Stickles on the snow, snowflakes, gumdrop trees, gumdrops and holly really makes this card sparkle!. I used Glossy Accents on all the peppermint and windows.

Stamp Sets Used: Dress Up Riley Snow Globe Stamp Set and matching dies (trees) - RCLR39 and RD39
Dress Up Riley Gingerbread Clear Set and matching dies - RCLR41 and RD41

GINGERBREAD KISSES

gingerbread kisses directions

Kit Includes:

- Wood Banner
- Wood bracket
- Gingerbread house paper
- Plaid paper
- Gingerbread man tag
- Sentiment tag
- Pop dots
- Gemstones
- Wood file
- twine

Assembly Directions:

1. Using your scissors or craft knife you want to trim the gingerbread paper to fit the wood banner. You can either trace and cut the paper or you can glue the paper down and then trim the excess with a craft knife.
2. Using the plaid paper do the same with the small wood bracket
3. Using the wood file, go around each wood element and sand the sides so that the paper is flush with the wood along the edges and create a distressed appearance
4. Using pop dots add the bracket (plaid) wood to the front of the banner as shown in the picture.
5. Fussy cut the sentiment tag and the gingerbread man tag
6. With your pop dots add the 2 tags to the plaid bracket as shown
7. Add the enclosed gemstones to your project as you would like
8. Punch the 2 holes thru the top of the banner and add the twine

SNOWMAN CARD

Diamond Dotz Snowman Card Instructions

Step 1: Open up your snowman kit. Locate and remove the covering from your Diamond Dotz wax, push the tip of your stylus all the way down in the wax and all the way up. Be sure to place the covering back over the wax.

Step 2: Locate bead packet A01, pour about half of the bead packet into the tray. Locate the associated symbol on the symbol key.

Step 3: Peel back the protective film and reposition or place underneath project for safekeeping, be careful not to let anything else touch the adhesive.

Step 4: Using a light touch, tap the tip of the stylus on the rounded side of a bead from your tray and tap it down on top of one of the corresponding symbols. When all the symbols for that packet number have been covered, pour your extra beads into a given resealable bag and move to the next color.

HEARTFELT SNOWMAN

"Heartfelt Snowman Glitterfilm/Glitter" MMTE Card Project

By *Papercrafting with STAMP ON IT* 2020

* Application of glitter borders:

1. Place Scarlet red glitter in coffee filter
2. Apply 1/8" wide Double Sided Adhesive to outside edge of 4.75" square layer of GlitterFilm, press adhesive tape to surface, remove paper coating, apply red glitter, burnish with finger, brush off excess/loose glitter with Anti-Static Brush.
3. Repeat above step using the square Overlay Window frame , you can place adhesive tape along edge or in slightly to create a frame with criss-cross corners. Apply green glitter.

* Construction of card:

1. Apply same adhesive tape to back side of GitterFilm layer and adhere to front of card
2. Apply adhesive or foam mounting tape(not included in kit, optional if you want some dimension) to back of Overlay frame layer and adhere to front of card over GlitterFilm layer
3. Peel snowman sticker(s) of choice and place on GlitterFilm layer inside of frame area as desired
4. Using Permanent Markers(or alcohol based markers) color snowman sticker (s) as desired. The red and green markers in your kit will coordinate with the Scarlet and Limon Glitter in your kit.
5. Using snowflake stickers and mitten corner stickers, embellish front of Overlay Frame and card front as desired.
